We do not have a deadline date for applications.

Remember: We support you making an informed decision, not an influenced one. Take your time!

5

How long is the recruitment application process?

This is “HOW WE MOVE”:

1. Your online application is reviewed upon receipt. Should we wish to meet you, you will receive an email to schedule an interview: in-person or online.
2. Your interview is conducted by our Talent Seekers. Your 1 hour interview will cover:
 - ✓ Let's get personal. Getting to know you.
 - ✓ What moves you. Why CA(SA)?
 - ✓ A day in your student life: academics and challenges.
 - ✓ Your Training Contract and Training Office: your expectations?
 - ✓ Delving even deeper... Your self-awareness.
 - ✓ Your turn for questions!
3. A Partner call is set up after a successful interview.
4. Invitation to join HEY trainee.
5. Successful candidates will receive an Offer for a Training Contract with a very reasonable acceptance date. We do not pressure students to sign.
6. When you accept = Welcome to #TEAMBASS. (We do a happy dance!)

“

We try to complete the entire process in no longer than a month.

6

Can a Trainee study part-time?

Preference is given to students who intend completing their CTA studies prior to commencing their training contract. However, in some instances depending on numbers, we will consider students unsuccessful with their CTA studies to start their training and repeat CTA part-time.

We support part-time students as best we can - you will receive study leave.

7

Do you offer secondments?

During your final year of the training contract, we will make recommendations for your secondment abroad should that be your wish. We have established relationships with external partnerships who take care of all your secondment needs.

It is safe to say that our MGI Trainees come in high demand – this is the result of great technical training; broad industry exposure; challenging work experiences; and good interpersonal skills gained throughout the training contract.

8

Do you retain trainees?

We believe that trainees who have completed a training contract with MGI, are the best possible CA(SA)'s in the industry – therefore, upon completion of your training, you are an asset to the firm. You need to prove that you are someone the firm wants to retain!

Post training contract, there are career opportunities in both Audit as well as other teams within the firm if operational requirements allow.

Building your career path is a team effort and we want to have open and honest conversations about your future with the firm if this is where you want to stay.

9

What does a day in the life of an audit trainee look like?

Your training contract is regulated by SAICA which sets out the [CA\(SA\) Competency Framework](#) which “*Identifies and describes the professional competencies (professional values and attitudes, enabling competencies and technical competencies) that a CA(SA) should demonstrate at entry point to the profession*”.

Bearing this in mind, every day within your training contract will present you with an opportunity to learn and grow. Trainees assist the managers and partners with planning, executing and finalising audits. You can and should expect a challenging yet rewarding learning experience.
